Fourth Quarter FY2010-11

The Group's profit attributable to owners of the parent of \$60.9 million decreased by \$13.0 million or 17.6% over the corresponding quarter last year, which had benefited from a gain on disposal of fixed assets, write-back of tax provisions by an associated company and jobs credit.

OUTLOOK

In the near term, demand for the Company's core businesses comprising line maintenance, airframe and component services and fleet management, is expected to be sustained. Reflecting the recovery of the engine and component business, the business volumes of our joint ventures are expected to grow. Nevertheless, the prevailing economic environment, including the weakness of the US dollar, continues to pose challenges.

The Group continues in its efforts to improve productivity and manage costs. Our broad range of services, diversified operations and our continuing drive to deliver outstanding quality remain our key strengths.
