

WSQ Handle, Inspect and Pack Engines & Components

What is Aerospace WSQ

The Aerospace Workforce Skills Qualifications (WSQ) is a national skills training system developed by the Aerospace industry and the Singapore Workforce Development Agency (WDA).

It maps out the skills needed for a job in the Aerospace Maintenance, Repair & Overhaul (MRO) and Engine Build industry and the training you need to enter it. The system also shows how you can continue with skills upgrading to progress in your career in Aerospace.

Course Synopsis

On completion of this Competency Unit (CU), learner will have the knowledge and application skills in handling, inspecting and packing engines and components parts.

Summary of the Competency Elements covered:

- Perform lifting, slinging and handling of engines, components or parts
- Perform packing and unpacking of engines, components or parts
- Conduct visual inspection of engines, components or parts

This is the Specialisation Elective Competency Unit (CU) that is required to attain the **WSQ Higher Certificate in Aerospace** (Engine Build), a national qualification awarded by WDA.

Who Should Attend

This is for personnel who wish to bridge their skills gaps or to pursue employment opportunities in the Aerospace Engine Build industry.
