

Heavy Maintenance Singapore Services (HMS Services), a joint venture between SIA Engineering Company (SIAEC) and Airbus, leverages on the synergy of SIAEC's extensive maintenance experience and expertise with Airbus' depth of technical and engineering knowledge as an airframe original equipment manufacturer. Airbus will develop the joint venture as its Centre of Excellence for Airbus A380 and A350 Heavy Maintenance in Asia, which will complement SIAEC's extensive airframe service offerings in Singapore and the Philippines.

As part of our growth plan, we are constantly looking out for talented, hardworking and energetic individuals who thrive on challenges and enjoy working in a fast-paced and dynamic environment. If you are looking for an exciting and fulfilling career, we are looking for suitable individuals to join us for the position of:

QUALITY MANAGER

JOB DESCRIPTION

- Ensure that the Company delivers all maintenance activities according to Quality Manuals and Quality standards of the Company in line with CAAS, EASA and FAA requirements and customer satisfaction
- Ensure that Company procedure required for Part 145 approval is set up and maintained
- Review local procedures prior to submission for integration in the Maintenance Organisation Manual and approve the relevant documents
- Establish the audit plan and ensure the follow up and closure of any non-conformances identified, review of opportunities for improvement, and as applicable revision to processes or procedures
- Grant authorizations specifying scope and limit for all Maintenance Organization certifying staff
- Ensure training is deployed across the organization in coordination with a Training coordinator / Manager including assessment of Certifying Staff authorization
- Develop and manage the Safety Audit, Training and Risk Management Systems
- Monitoring compliance to relevant statutory and company regulations and standards regarding Occupational Health, Safety and Environmental related issues.
- Provide guidance and direction for the planning, implementation and operation of the Safety Management System.

REQUIREMENTS

- Applicants should have a valid CAAS B1 or B2 License and a minimum of 5 years' experience in Quality from an aviation/aerospace maintenance repair organization
- Practical experience in Part 145 regulations preferred
- Possess strong leadership and operational skills with an analytical and innovative mind
- Self-starter with excellent communication and interpersonal skills
