**GROUP EARNINGS**

Fourth Quarter FY2009-10

SIAEC Group profit attributable to equity holders for the quarter ended 31 March 2010 was \$73.9 million, an increase of \$8.4 million or 12.8% over the same period last year. The quarter's results benefited from surplus on disposal of fixed assets and write-back of tax provisions by an associated company.

Revenue of \$272.6 million for the quarter increased \$26.8 million or 10.9% over the same period last year. This was primarily contributed by fleet management programme and airframe and component overhaul work.

Expenditure at \$231.4 million was \$12.3 million or 5.6% higher. The increase was mainly from higher staff costs, partially mitigated by lower subcontract costs. Staff costs increased mainly due to lower jobs credit compared to the corresponding period last year.

The resulting operating profit of \$41.2 million was \$14.5 million or 54.3% higher than the same quarter last year. At the pre-tax profit level, Group earnings increased by a lower \$1.8 million or 2.3%. This was mainly due to a decline in share of profits of associated and joint venture companies of \$19.4 million or 40.6% to \$28.4 million, partially mitigated by a \$6.1 million surplus from the disposal of fixed assets.

Note: The SIAEC Group's audited financial results for the financial year ended 31 March 2010 were announced on 14 May 2010. A summary of the financial statistics is shown in Annex A. ### Financial Year 2009-10

Operating profit for the financial year at \$110.4 million was \$2.2 million or 2.0% lower compared to last year. Share of profits from associated and joint venture companies declined \$43.3 million or 25.0% to \$129.7 million. This amounted to 49.4% of the Group's pre-tax profits. Surplus on disposal of fixed assets increased \$5.9 million while provision for tax fell \$12.9 million or 34.5% to \$24.5 million.

The resulting profit attributable to equity holders of \$236.1 million for the financial year ended 31 March 2010 was \$24.5 million or 9.4% lower than last year.

Revenue declined \$38.9 million or 3.7% to \$1,006.4 million mainly due to lower airframe and component overhaul work and revenue from the turnkey project. This drop was partially mitigated by higher fleet management revenue.

Expenditure saw a reduction of \$36.7 million or 3.9% to \$896.0 million. Staff and subcontract costs were lower as a result of cost management initiatives.

Basic earnings per share was 21.88 cents for the financial year ended 31 March 2010, a decrease of 2.32 cents per share over last year.
