

ABOUT US

A leading provider in line maintenance services, SIA Engineering Company, together with our joint ventures and subsidiaries, are currently present in 9 countries. Our global line maintenance network is supported by over 3,000 employees, covering more than 40 airports with approvals from over 28 national airworthiness authorities worldwide.

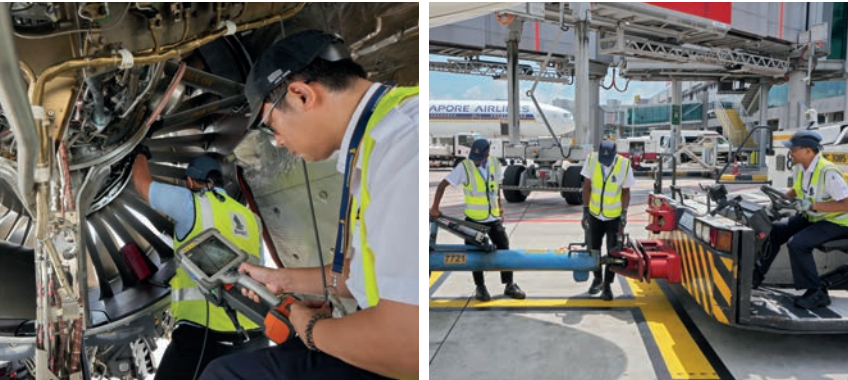

We recognise the delivery of high-value engineering solutions and the benefits of optimising the aircraft ground time during a long transit or nightstop; our line maintenance team will complement your airline’s planning requirement in scheduling maintenance tasks that we can perform at our network. Beyond transit certification, our comprehensive services include:

- technical ramp handling, including GSE provision
- maintenance of aircraft up to ‘A’ checks
- engine change, thrust reverser cowl change, landing gear change
- cabin maintenance & parts fabrication
- structural repair, composite repair, radome repair
- aircraft exterior wash, engine core wash, waste line cleaning
- aircraft interior cleaning and disinfection
- integrated pest management & residual disinsection

In addition, we have a specialised Quick Action Team based in Singapore, dedicated to respond to any AOG situation for our customers in Singapore or overseas on round-the-clock basis.

We are appointed by Rolls-Royce as the On-Wing Support and In-Field Services Support provider in Singapore to provide a wide range of support (including engine changes) to operators of Trent 7000, 1000, 900, 800, 700 and XWB engines. For CFM LEAP-1A/1B engines, we are also appointed by Safran Aircraft Engines to provide engine on-site support, quick turn, borescope inspection services and engine test services.

At SIA Engineering Company, we understand the importance of minimal disruptions to flight schedules. We emphasise quick response time, high dispatch reliability and a strong global network to complement our spectrum of MRO services. With our team of experienced engineers, capability and global network, we are ready to support your needs.
