• Interim dividend per share	5.0 cts	-	-	-

GROUP EARNINGS

First Half FY2009-10

Amidst a challenging operating environment, SIAEC Group posted a profit attributable to equity holders of \$106.2 million, which was \$25.9 million or 19.6% lower than the corresponding period last year.

Revenue declined \$37.2 million or 7.0% to \$492.3 million, mainly attributable to lower airframe maintenance and component overhaul work as airlines reduced aircraft utilisation in tandem with the weak demand for air travel. This decrease was partially mitigated by higher Line Maintenance revenue generated from an increase in rectification and cabin maintenance work and more flights handled, primarily for low cost carriers. There was an increase in Fleet Management revenue arising from a larger fleet size of existing customers and, the addition of new customers. However, the revenue from the turnkey project to redesign, retrofit and overhaul a B747-400 was lower as the project was completed in the fourth quarter of FY 2008-09.

The implementation of various cost management initiatives resulted in expenditure falling \$28.1 million or 5.9% to \$444.9 million, mainly from reductions in staff costs and subcontract costs.

The resulting operating profit of \$47.4 million was \$9.1 million or 16.1% lower than the same period last year.

Note: The SIAEC Group's unaudited financial results for the half year and second quarter ended 30 September 2009 were announced on 2 November 2009. A summary of the financial statistics is shown in Annex A. (All monetary figures are in Singapore Dollars. The Company refers to SIA Engineering Company Limited. The Group comprises the Company and its subsidiary, joint venture and associated companies.)

Share of profits of associated and joint venture companies decreased by \$15.7 million or 18.8% to \$67.6 million, as they were similarly impacted by the decline in aviation business.

Basic earnings per share was 9.84 cents for the half year ended 30 September 2009.

Second Quarter FY2009-10

Revenue decreased \$31.2 million or 11.2% to \$248.1 million. The decline was mainly due to lower airframe and component overhaul work, material usage and revenue from the B747-400 turnkey project. This was partially mitigated by higher Line Maintenance revenue, with more flights handled and an increase in aircraft support work, and Fleet Management revenue.

Expenditure dropped \$26.2 million or 11.0% to \$213.0 million, reflecting lower staff costs, subcontract costs and reductions in material usage.

Operating profit for the quarter was \$35.1 million, a decrease of \$5.0 million or 12.5% over the same quarter last year.

The Group recorded a profit attributable to equity holders of \$61.1 million, \$12.3 million or 16.8% lower than the corresponding period last year. Profits from associated and joint venture companies declined \$7.7 million or 19.4% to \$32.0 million. This represents a contribution of 44.9% to the Group's pre-tax profits.

The basic earnings per share was 5.66 cents.

GROUP FINANCIAL POSITION

As at 30 September 2009, equity attributable to equity holders of the Company amounted to \$1,185.2 million, \$43.7 million or 3.6% lower than at 31 March 2009.

Total assets decreased by \$55.4 million or 3.7% to \$1,446.8 million. Net asset value per share of 109.8 cents was 4.2 cents or 3.7% lower than at 31 March 2009. The total number of shares issued was 1,079.2 million as at 30 September 2009.

The Group has a healthy cash balance of \$302.2 million as at 30 September 2009, after a payment of \$118.7 million final dividend for FY 2008-09 during the quarter.

DIVIDEND

The Company has declared an interim dividend of 5.0 cents per share (tax exempt one-tier) for the half year ended 30 September 2009, unchanged from last year.

OUTLOOK

In tandem with the airline industry's early signs of recovery, the Group posted a better performance in second quarter compared to the first quarter. However, the prospects for a sustained recovery remain uncertain.

Ongoing efforts to extend market reach and increase product mix will continue with the aim of broadening the revenue base. The Group will press on with its efforts to manage costs, optimise manpower deployment and improve productivity. With these measures in place, the Group is well positioned to capitalise on opportunities.
