

## PRESS RELEASE

# Safran Electronics & Defense Services Asia invests in new MRO capabilities in Singapore

*The company acquired new repair capabilities and upgraded its facility in anticipation of air traffic recovery*

**Singapore, February 19, 2022 – Safran Electronics & Defense Services Asia**, a joint venture between Safran Electronics & Defense and SIA Engineering Company Limited, announced today that it has expanded its scope of Maintenance Repair and Overhaul (MRO) activities.

Safran Electronics & Defense Services Asia will now carry out Maintenance and Repair Operations on landing gear control systems, such as tyre pressure and brake temperature monitoring, for aircraft ranging from business jets to civilian aircraft, at its Singapore site. Safran Electronics & Defense Services Asia's territorial rights to perform these repairs covers Asia Pacific, Europe, Middle East and Africa.

In addition, Safran Electronics & Defense Services Asia acquired new scope of repairs including a range of products from external lighting, wiper systems, cockpit control to cargo door systems.

"In anticipation of the traffic recovery in the region, we have expanded our capacity and scope of repairs and we recently upgraded our store to welcome more activity. Our company now serves as Safran's sole site for repairs in Asia Pacific for A350 avionics equipment and Rotating Pressure Sensor Assembly components," commented Matthieu Pere, CEO of Safran Electronics & Defense Services Asia.

"We welcome Safran Electronics & Defense Services Asia's decision to expand its MRO capabilities in Singapore. It is a testimony to Safran's confidence in Singapore as a leading aerospace hub," said Lim Tse Yong, Vice President, Capital Goods and Vice President, Conglomerates, Singapore Economic Development Board. "We look forward to partnering with our industry partners, including Safran, to seize opportunities with the recovery."

### **About Safran Electronics & Defense Services Asia**

Safran Electronics & Defense Services Asia Pte Ltd is a joint venture between Safran Electronics & Defense and SIA Engineering Company Limited. It is the Asia-Pacific maintenance, repair and overhaul (MRO) center for the Safran group's avionics and electronics equipment. In addition to repair, the company provides technical and commercial support for airline customers on behalf of Safran's OEMs in the Asia-Pacific region including China. Safran Electronics & Defense Services Asia provides customer support and MRO services for avionics equipment and components for Boeing 777, 747, 737, 787, and Airbus A320, A330, A340, A380, A350 and ATR 42/72.
